homepage](#)

In our Latest Insurance Insights, we explore KPMG's latest ESG publication: [You can't go green without blue](#). While the world's attention has been caught by the direct terrestrial implications of the green agenda, the 'blue economy' has not been prioritized to date. The 'green' economy should include the sustainable use of oceanic resources, but the pivotal role of the oceans in limiting temperature rises and stimulating socioeconomic development has been comparatively absent from the transition towards a green global economy.

You will also find our latest on how insurers can become a truly connected enterprise, as well as KPMG 2021 CEO Outlook Pulse Survey, and much more.

Once you have reviewed the materials, please get in touch with your KPMG contact or me, as we welcome the opportunity to discuss these topics or any other business ideas or issues with you.

Sincerely,

Mark Allitt
Managing Director
Sector Lead, Insurance
