MCA amended CSR provisions under the Companies Act, 2013

Recently, the Ministry of Corporate Affairs (MCA) has notified certain provisions of the Companies (Amendment) Act, 2019¹ relating to Corporate Social Responsibility (CSR) with effect from 22 January 2021. Additionally, MCA has issued certain amendments to the Companies (CSR Policy) Rules, 2014 (CSR Rules). In this section, we discuss the key features of the notified provisions and the amendments to CSR Rules.

As per the notified amendments, a company would be mandatorily required to utilise the unspent amount earmarked for CSR activities, failing which it would be transferred to a fund specified in the Schedule VII of the Companies Act, 2013 (2013 Act). Until a fund is specified in Schedule VII of the 2013 Act, the unspent CSR amount, if any, should be transferred by the company to any fund included in Schedule VII of the 2013 Act².

The notified provisions are as follows:

- **Unspent amount of CSR on ongoing CSR projects (Section 135(6)):** In case the CSR amount remains unspent pursuant to any ongoing CSR project undertaken by a company as per its CSR policy, then the company should transfer such unspent amount to a special account within a period of 30 days from the end of the Financial Year (FY). The company should spend the amount transferred to the unspent CSR account within a period of three FYs from the date of such transfer as per its obligation towards the CSR policy.

In case it fails to spend the amount within the specified period, it would be required to transfer the same to a fund specified in Schedule VII of the 2013 Act, within a period of 30 days from the date of completion of the third FY.

- **Unspent amount on CSR activities (Section 135(5)):** In other cases when there is no ongoing project, the unspent amount should be transferred to a fund specified in Schedule VII of the 2013 Act within a period of six months from the expiry of the FY.
- **Revised definitions (Rule 2 of CSR Rules):** The amendments have revised definitions of certain terms relevant to the applicability of CSR provisions under the 2013 Act. These, *inter alia*, include:
 - **CSR:** Currently, CSR has been defined³ to include:
 - a. Projects or programs relating to activities, areas or subjects specified in Schedule VII to the 2013 Act
 - b. Projects or programs relating to activities undertaken by the board of directors of a

company in pursuance of recommendations of the CSR committee of the board as per declared CSR policy of the company subject to the condition that such policy will include activities, areas or subjects specified in Schedule VII of the 2013 Act.

Amendment

The amendments have revised the CSR definition under the CSR Rules. As per the revised definition, CSR would mean the activities undertaken by a company in pursuance of its statutory obligation laid down in Section 135 of the 2013 Act but should not include the following:

- a. Activities undertaken in pursuance of normal course of business of the company
- b. Any activity undertaken by the company outside India except for training of Indian sports personnel representing any State or Union territory at national level or India at international level
- c. Contribution of any amount directly or indirectly to any political party
- d. Activities benefitting employees of the company as defined in Section 2(k) of the Code on Wages, 2019
- e. Activities supported by the companies on sponsorship basis for deriving marketing benefits for its products or services
- f. Activities carried out for fulfilment of any other statutory obligations under any law in force in India.

The amendments clarify that companies engaged in research and development activity of new vaccine, drugs and medical devices in their normal course of business may undertake research and development activity of new vaccine, drugs and medical devices related to COVID-19 for FYs 2020-21, 2021-22, 2022-23. However, certain conditions have to be fulfilled:

- a. Such research and development activities should be carried out in collaboration with any of the institutes or organisations given under Schedule VII (point (ix)) to the 2013 Act
- b. Details of such activity should be disclosed separately in the annual report on CSR included in the board's report.

1. The Companies (Amendment) Act, 2019 got the presidential assent on 31 July 2019. The amendments relating to CSR were not notified at that time.

2. Amendments made to the CSR Rules.

3. Definition under the Companies (CSR Policy) Rules, 2014 (CSR Rules).

- *CSR policy*: As per CSR Rules, CSR policy relates to the activities to be undertaken by the company in areas or subjects specified in Schedule VII to the 2013 Act and the expenditure thereon, excluding activities undertaken in pursuance of normal course of business of a company.

Amendment

As per the revised definition, CSR policy would mean a statement containing the approach and direction given by the board of a company, taking into account the recommendations of its CSR committee, and includes guiding principles for selection, implementation and monitoring of activities as well as formulation of the annual action plan.

- *Ongoing project*: A new definition has been included in the CSR Rules on 'ongoing project'. An ongoing project has been defined to mean a multi-year project undertaken by a company in fulfilment of its CSR obligation with timelines not exceeding three years (excluding the FY in which it was commenced). It should also include such project that was initially not approved as a multi-year project but whose duration has been extended beyond one year by the board based on reasonable justification.
- **CSR implementation (Rule 4 of CSR Rules)**: Currently, a company can undertake CSR activities either through itself or through a company/trust/society established under Section 8 of the 2013 Act.

Amendment

As per the amendments, every entity who intends to undertake any CSR activity should register itself with the Central Government (CG) by filing the form CSR-1 electronically with the Registrar of Companies (ROC) with effect from the 1 April 2021. However, the provisions would not apply to the CSR projects or programmes approved prior to 1 April 2021.

Form CSR-1 should be signed and submitted electronically by the entity and should be verified digitally by a Chartered Accountant (CA) in practice, Company Secretary (CS) in practice, or a cost accountant in practice.

Additionally, a company may engage international organisations for designing, monitoring and evaluation of the CSR projects or programmes as per its CSR policy as well as for capacity building of their own personnel for CSR.

The board of a company should satisfy itself that the funds so disbursed have been utilised for the purposes and in the manner as approved by it. It should be certified by the Chief Financial Officer (CFO) or the person responsible for financial management.

- **CSR committee (Rule 5 of CSR Rules)**: Currently, every company required to make a CSR spend should constitute a CSR committee. **The CSR committee is required to institute a transparent monitoring mechanism for implementation of the CSR projects or programs or activities undertaken by the company.**

Amendment

The amendments require a CSR committee to formulate and recommend an annual action plan in pursuance of its CSR policy to the board of directors, which should include the following:

- The list of CSR projects or programmes that are approved to be undertaken in areas or subjects specified in Schedule VII of the 2013 Act
- The manner of execution of such projects or programmes
- The modalities of utilisation of funds and implementation schedules for the projects or programme
- Monitoring and reporting mechanism for the projects or programmes and
- Details of need and impact assessment, if any, for the projects undertaken by the company.

The board of directors may alter such plan at any time during the FY, as per the recommendation of its CSR committee, based on the reasonable justification to that effect.

(Emphasis added to highlight the change)

- **Surplus funds from CSR activities (Rule 7 of CSR Rules)**: As per the amendments, any surplus arising out of the CSR activities would not form part of the business profit of a company and should either be ploughed back into the same project or should be transferred to the unspent CSR account and spent in pursuance of CSR policy and annual action plan of the company. It can also transfer the surplus amount to a fund specified in Schedule VII of the 2013 within a period of six months of the expiry of the FY.
- **Creation/acquisition of an asset (Rule 7 of CSR Rules)**: As per the amendments, the CSR amount may be spent by a company for creation or acquisition of a capital asset, which should be held by:
 - A company established under Section 8 of the 2013 Act, or a registered public trust or registered society with charitable objects and CSR registration number

- b. Beneficiaries of the said CSR project, in the form of self-help groups, collectives, entities or
- c. A public authority⁴.

With respect to the capital asset created by a company prior to the commencement of the Companies (CSR Policy) Amendment Rules, 2021, the company should comply with the prescribed requirement within a period of 180 days from such commencement which may be extended by a further period of up to 90 days with the approval of the board of directors based on reasonable justification.

- **Impact assessment (Rule 8 of CSR Rules):** The amendments requires every company with an average CSR obligation of INR10 crore or more (in the three immediately preceding FYs) to undertake an impact assessment of their CSR projects with outlays of INR1 crore or more and which have been completed not less than one year before undertaking the impact study. The assessment should be done through an independent agency. The impact assessment reports should be placed before the board of directors and should be annexed to the annual report on CSR.
- **New format of annual report on CSR (Annexures to CSR Rules):** The amendments have also introduced a new format for the annual report on CSR activities to be included in the board's report for FY commencing on or after 1 April 2020. It also provides the format of e-form CSR-1 for registration of entities undertaking CSR activities.

Effective date: The amendments are effective from the date of their publication in the official gazette i.e. 22 January 2021 except for filing of form CSR-1 which is effective from 1 April 2021.

Risk based internal audit framework for banks

Background

Currently, banks are required to put in place a Risk-Based Internal Audit (RBIA) system as part of their internal control framework that relies on a well-defined policy for internal audit, functional independence with sufficient standing and authority within the bank, effective channels of communication, adequate audit resources with sufficient professional competence, among others. The requirement has been laid down in the Guidance Note on Risk-Based Internal Audit issued by RBI in 2002.

The guidance note lays the basic approach for risk based internal audit functions. Banks are expected to re-orient their approach, in line with the evolving best practices, as a part of their overall governance and internal control framework. Banks are also encouraged to adopt the International Internal Audit standards, like those issued by the Basel Committee on Banking Supervision (BCBS) and the Institute of Internal Auditors (IIA).

New development

With a view to bring uniformity in approach followed by the banks and to align the expectations on internal audit function with the best practices, on 7 January 2021, RBI through a notification has issued certain guidelines for the banks. The guidelines, *inter alia*, relates to:

- **Authority, stature and independence:** The internal audit function must have sufficient authority, stature, independence and resources within the bank, thereby enabling internal auditors to carry out their assignments with objectivity. Accordingly, the head of internal audit should be a senior executive of the bank who should have the ability to exercise independent judgement.

- **Competence:** Banks should ensure that internal audit function has the requisite skills to audit all areas of the bank.
- **Staff rotation:** The board should prescribe a minimum period of service for staff in the internal audit function. The board may also examine the feasibility of prescribing at least one stint of service in the internal audit function for the staff possessing specialised knowledge useful for the audit function, but who are posted in other departments, so as to have adequate skills for the staff in the internal audit function.
- **Remuneration:** The remuneration policies should be structured in a way that it avoids creating conflict of interest and compromising audit's independence and objectivity.
- **Others:** The internal audit function should not be outsourced. However, where required, experts, including former employees, could be hired on contractual basis subject to the Audit Committee of Board (ACB) being assured that such expertise does not exist within the audit function of the bank. Ownership of audit reports in all cases should rest with regular functionaries of the internal audit function.

Additionally, banks must ensure and demonstrate that their risk-based internal audit framework captures all the significant criteria/principles suited for their organisational structure, the business model and the risks through proper documentation.

Effective date: The guidelines are effective from 7 January 2021.

FASB issued an update clarifying the scope of Topic 848 - Reference rate reform

The Financial Accounting Standards Board (FASB) has recently issued an Accounting Standards Update (ASU) that clarifies the scope of the Topic 848, *Reference Rate Reform*. The amendments in the ASU clarified that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting will apply to derivatives that are affected by the discounting transition. Specifically, certain provisions in Topic 848, if elected by an entity, will apply to derivative instruments that use an interest rate for margining, discounting or contract price alignment that is modified as a result of reference rate reform. The amendments in the ASU to the expedients and exceptions in Topic 848 also capture the incremental consequences of the scope clarification and tailor the existing guidance to derivative instruments affected by the discounting transition.

The amendments are elective and applies to all entities that have derivative instruments that use an interest rate for margining, discounting, or contract price alignment that is modified as a result of reference rate reform. The amendments also optionally apply to entities that designate receive-variable rate, pay-variable-rate cross-currency interest rate swaps as hedging instruments in net investment hedges that are modified as a result of reference rate reform.

Effective date: An entity may elect to apply the amendments on a full retrospective basis as of any date from the beginning of an interim period that includes or is subsequent to 12 March 2020. An entity may also apply the amendments on a prospective basis to new modifications from any date within an interim period that includes or is subsequent to the date of the issuance of a final update, up to the date that financial statements are available to be issued.

If an entity elects to apply any of the amendments for an eligible hedging relationship, any adjustments as a result of those elections must be reflected as of the date the entity applies the election.

The amendments do not apply to:

- a. Contract modifications made after 31 December 2022
- b. New hedging relationships entered into after 31 December 2022 and
- c. Existing hedging relationships evaluated for effectiveness in periods after 31 December 2022, except for hedging relationships existing as of 31 December 2022, that apply certain optional expedients in which the accounting effects are recorded through the end of the hedging relationship (including periods after 31 December 2022).
