Our services

Audit

Integrity, quality and independence are the building blocks of KPMG's audit approach. Our approach is to look beyond the mere assessment of financial information to deliver practical, commercially astute advice.

Our judgments are based on an in-depth understanding of the unique elements of an entity - the culture, the sector, the competitive pressures and the risks. This enables our team to identify areas of operational improvement, as well as to help users of financial statements gain confidence in them.

Tax

Our tax practice helps entities and individuals to reduce their tax burden while meeting the highest standards of compliance. We pride ourselves on our bright, motivated and committed team of experienced Lao and expatriate tax advisers and our hand-on approach to solving complex tax issues.

Advisory

Our advisory team helps entities to become more efficient. We provide support in all stages of an organization's lifecycle, helping clients to tackle a minefield of challenges: stringent regulation, boundless cost pressures, increased competition at home and abroad, not to mention striving to meet their own growth agenda. We share objective, practical advice that reshapes the established ways of thinking in order to add long term value to the organizations with whom we work.
