

# Intelligent data extraction assistant

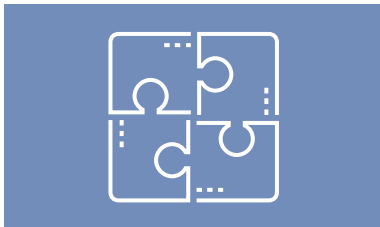

Automate time-consuming tax compliance admin work the easy way with KPMG's dedicated tool for extracting data

## HOW CAN OUR ASSISTANT HELP YOU?

Significant time is lost on administrative paperwork and tedious task—time that could be used to focus on clients. This is due to the cumbersome process of finding and recording data in countless databases, or in an unstructured format.

Our Data Analytics and Tax Alternative Investment team has developed a new tool combining robot process automation and artificial intelligence. It can help you perform a number of administrative tasks and reduce the time and energy you spend on data.

## BENEFITS FROM IDEA

### **Built by tax compliance experts**

Associates with our longstanding tax expertise to enhance its results

### **Saves time and reduces costs**

Save time and improve employee experience

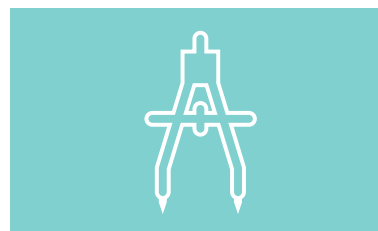

### **Simple**

Easy-to-use and compatible with any IT environment

### **A tried-and-tested tool that eliminates human error**

Automate all time-consuming work with astonishing levels of accuracy

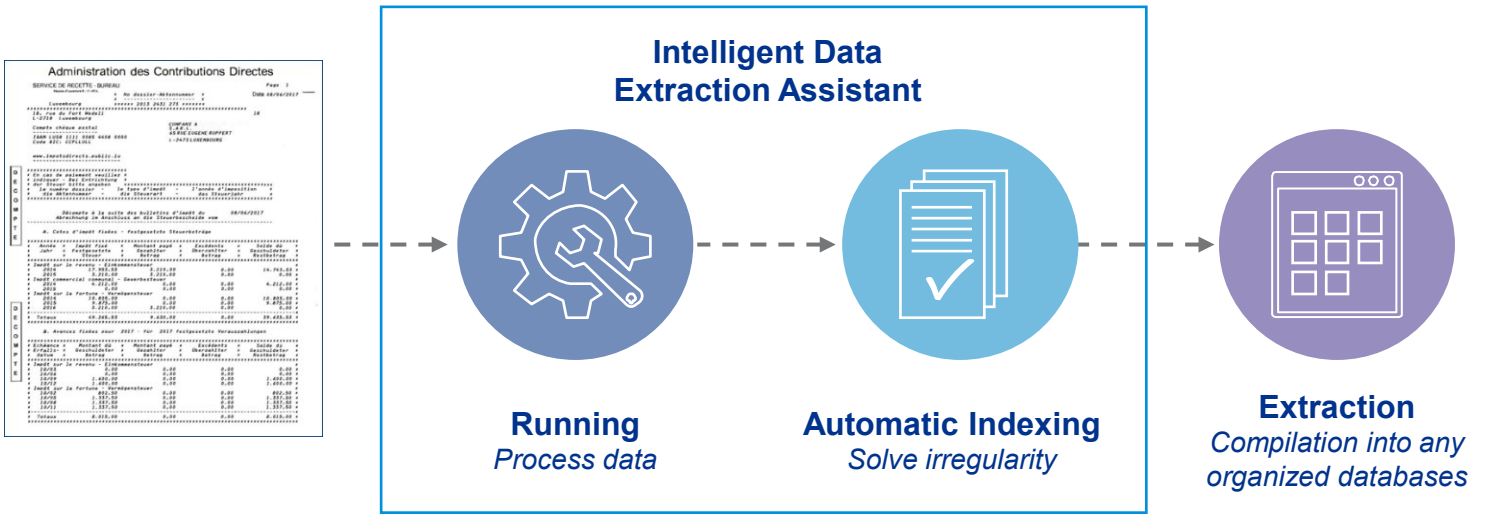

### **Flexible and tailored to your needs**

Endless possibilities with an accessible pricing to match your needs

# HOW CAN OUR ASSISTANT HELP YOU?

## Reduce tax admin, save time and money

Automate time-consuming tax compliance admin work the easy way with KPMG's dedicated tool for extracting data.
