

Customer-centric supply

KPMG Powered Enterprise | Supply chain

June 2020

To disrupt you must transform

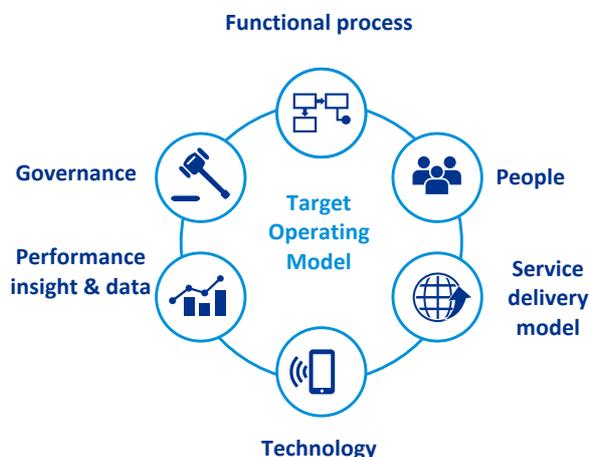

71%^(a) of CEOs plan to radically transform their organizations' operating model - and more than half say that acting with agility is the new currency of business. COOs have a pivotal role to play in how the organization and its people respond.

COOs have important questions

- Is my supply chain initiative focused on customer experience metrics?
- Does my end-to-end supply chain function as one virtual organization?
- Can I see my total demand and supply picture at any point in time?
- How quickly can I identify and respond to a potential supply continuity issue?
- Are product movements driven by actual demand or by forecasted demand?

Powered Enterprise accelerates supply chain transformation

At the heart of KPMG Powered Enterprise | Supply Chain Management (SCM) is a pre-built target operating model.

Note: (a) KPMG CEO Outlook Survey, KPMG International, 2018

Powered Supply Chain is the outcome-driven transformation solution that prepares your business for the future.

KPMG teams understand the human factors involved in business transformation. We can help inspire and empower your people to embrace change, as you align your workforce transformation with industry disruption.

A pre-configured cloud solution, embedded with years of leading practice and enhanced with automation, Powered Supply Chain enables you to quickly transform and aims to derive maximum value from your move to the cloud.

It's not what you put into the cloud that matters, but what you get out of it

Powered Enterprise | SCM provides:

- A jump start to your digital transformation
- Immediate access to leading practices and processes
- Validated solutions with proven real-world usability
- Reduced implementation risks and enhanced ROI
- High-touch change management and employee experience
- A solid platform for continuing evolution and progress

” Powered enables us to see the future, relate it to what we have today and move forward with leading practice. ”

– A multinational hospital

” KPMG was a perfect fit for us, bringing the tools and experience necessary for us to make a complete and smooth transition to the cloud. ”

– A US building material company

Going beyond efficiency gains

Powered SCM enabled by [insert] focuses on the future agility of your business. It includes and reaches beyond efficiency gains from traditional supply chain-related tasks by using automation, predictive analytics and cognitive learning to extend the role of supply chain management. This will not be a legacy you need to discard in five years' time.

What's in the box?
