Managing your global workforce

For many organizations, the pressure to compete effectively has led to an increase in the size and complexity of their global workforce, placing greater demands on international human resource teams. Managing compensation, tax compliance and global mobility is becoming more costly, complex and time-consuming.

KPMG’s Global Mobility Services (GMS) practice brings together a wealth of tax, technology, immigration and mobile administration services to help make managing your global workforce easier, safer and far more efficient. Whether you are considering expansion or relocation to a new location, an acquisition or more streamlined processes to manage your existing workforce, our practice can support you.

The scale and scope of our knowledge spans the world, with our diverse, experienced teams working closely to provide personal service on a global scale.

© 2016 KPMG International Cooperative (“KPMG International”). KPMG International provides no client services and is a Swiss entity with which the independent member firms of the KPMG network are affiliated.
To help provide you with the competitive edge, the GMS practice aims to provide value beyond the preparation of tax returns. While completing tax returns for international assignees is a personalized service provided for each expatriate, we can also help assignees get the payroll information they need to process a return. KPMG professionals review a company’s current program to help uncover potential savings and then help the company implement the ideas and methodologies it chooses to adopt. All of this is done in alignment with the organization’s global corporate goals and compliance initiatives.

**Case study**

A GMS client was expanding into a number of jurisdictions across Europe and Asia Pacific. The KPMG member firm assisted the client to develop their global mobility policies by identifying the key benefits commonly offered in each jurisdiction and structuring the provision of those benefits in the most cost effective manner. This enabled the company to ensure its policies were both competitive and cost effective.

**Services to help you help them**

**Mobility Consulting Services (MCS)**

KPMG’s GMS practice offers a broad array of strategic (advisory) and administrative (outsourcing) services to help improve business processes, including:

- policy review, design, and development
- international assignment process improvement and re-engineering
- process manuals and guides
- international assignee assessment and repatriation planning
- assignee communications
- tailored benchmarking surveys
- employee attitude surveys.

The GMS team has worked with many leading multinational organizations that have redesigned their policies and processes to reduce costs, improve assignee satisfaction, address a new environment caused by a merger or acquisition, and respond to recent government legislation.

The GMS practice has also provided assistance with routine administration of international assignment programs so that companies can focus on high-level strategic human resources aspects of their programs.

It is important to us that both the organization and individual assignee are confident that all aspects of the assignments are being handled effectively.

**Due Diligence Advisory**

When your company needs to evaluate tax compliance, our Due Diligence Advisory team can provide a variety of services, from assisting with evaluating permanent establishment issues to helping to evaluate potential unrecorded liabilities associated with globally mobile employees.

Companies often ignore the tax aspects of transactions such as an acquisition, a merger, movement into a new country or a joint venture. If a significant amount of your business is from offshore
During the due diligence review for a corporate acquisition, the KPMG member firm identified substantial unrecorded liabilities related to international assignees of the target company. As a result, the client was able to favorably adjust the purchase price for the target and subsequently put in place processes to mitigate their associated tax and financial costs going forward.

Case study

An internal audit review of compliance with internal corporate processes, including employer withholding, remittance and reporting obligations, resulted in an audit adjustment for unpaid taxes and penalties associated with a number of short-term assignments. The KPMG member firm worked with the client’s corporate tax and human resources teams to put into place processes and controls to mitigate such an occurrence in the future. The member firm also negotiated with multiple jurisdictions to mitigate any penalties and interest arising in respect of the identified exposure.
KPMG has been among the first in the market to use data and analytics to help you make evidence-based decisions and better align global mobility and human capital with broader organizational goals. Our Global Mobility Services practice develops technology tools that can help you manage costs and enhance efficiency.

The KPMG LINK Work Force suite of global mobility tools, combined with KPMG’s services, can help streamline and simplify the management of your global mobility program. Our web-based, integrated, and user-friendly tools can be tailored to a company’s assignment program and can be used in multiple languages.

How can globally mobile employees use KPMG LINK Work Force?
KPMG LINK Work Force is a powerful resource that international assignees can use throughout their assignment. They can:

— exchange information with KPMG firms securely and conveniently
— access data collected for both home and host country tax return preparations (more than 70 countries included)
— enter required information only once (information is automatically shared for multiple countries)
— build relevance by interactively presenting follow-up questions based on previously entered answers
— learn about home and host country tax obligations
— view the status of a tax return or tax equalization/settlement calculation, and retrieve documents, such as a completed tax return or certificate of coverage.

How can global mobility managers use KPMG LINK Work Force?
KPMG LINK Work Force provides a single portal for all stakeholders and can help streamline the management of a globally mobile population. Through the portal you can provide tailored views to each user and configure workflows to support key processes in the assignment lifecycle, depending on the tools you leverage.

— Dashboard and status report center: see the latest status of all tax compliance projects such as home and host country tax returns, tax equalization settlements, assignment counseling sessions and other activities. The dashboard provides a high level, graphical status of all tax compliance at both the program and individual employee levels, with multiple portlets that can be added to or removed from your personalized dashboard. Key metrics allow you to evaluate your international tax compliance program and KPMG’s performance at a glance. All data is shown graphically on screen for easy review and analysis. A drill-down capability allows you to focus on certain subsets of data for detailed information along with the ability to export that data into Excel for further manipulation.

— Taxpayer documents: a place for you to retrieve international assignee specific documentation, such as tax equalization summary information, hypothetical tax calculations, and assignment letters.

— Online collaboration: access to online space for you to work collaboratively with KPMG member firm professionals and your own company’s management on projects, initiatives, and ongoing engagement management.

— Travel tracker: generate real-time travel and workday reports based on data entered by the assignee. The travel tracker can be particularly beneficial in determining an employee’s filing or withholding obligations.

— Benchmarking center: houses the Global Assignment Policies and Practices Survey, the first web-based survey of its kind, which provides immediate data and enables you to compare global mobility policies across peer organizations.
