

# Cloud HR: the future belongs to the bold

**Cloud HR** is becoming a leading delivery model for HR technology.

**42%** will replace their existing HR system with a Cloud based solution

**Cloud HR** systems promise a number of significant benefits but the benefits don't always match the reality.

**63%** expect improved value add from HR to the business

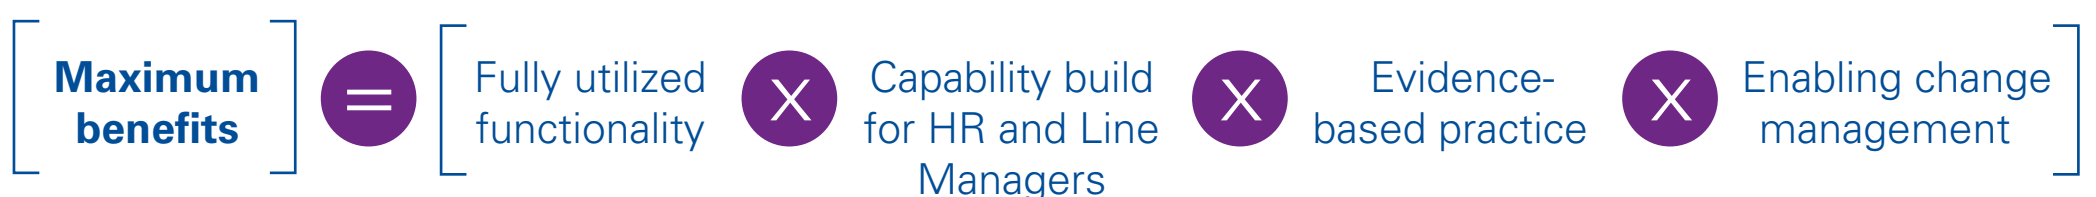

Simply acquiring the latest **Cloud HR** system does not guarantee benefits.

**Only 24%** report that Cloud HR brings the ability to reconfigure the HR function to drive greater business value

**Cloud HR** success demands the intelligent integration of:

**Technology** **People** **Processes**

**To achieve the greatest benefits from Cloud HR systems, leading organizations successfully integrate people, processes and technology to create a value-driving HR function.**
