Special investment contract as a new instrument for investors support
Special investment contract (SPIC)* is a measure of state support in the form of agreement between investor and government authorities represented by the RF or/and regional authorities of the RF or/and municipal authorities aimed at the following purposes:

- Creation or modernization of industrial production.
- Introduction of the best available technologies.
- Development of industrial production which has no analogues produced in the RF.

Legislation relating to SPICs is actively developing and various questions require detailed analysis/elaboration before taking a decision to conclude SPIC.

Basic requirements for conclusion of SPIC

- The amount of capital investments - not less than RUB 750 mln at federal level.
- Business activity in the certain industrial sectors.
- It is necessary to indicate the list of state support measures suggested by investor to be included in SPIC.
- Certain list of documents (including business plan of investment project) should be provided to the government authorities.

Advantages of SPIC

- Conclusion of SPIC at federal, regional and/or municipal levels as well as combined options.
- Simplified access to government contracts (draft law stipulating amendments in the legislation).
- Simplified and accelerated procedure for receipt of “Russian producer” status.
- Possibility to receive certain measures of government support in simplified way.
- Guarantee of non-increase of total tax burden.

Main tax incentives*

- Federal budget: 0% tax rate.
- Regional budget: tax rate can be reduced to 0%.
- Accelerated depreciation coefficient.
- Possibility to apply reduced property tax rate can be stipulated by regional authorities.
- Other tax incentives can be established by regional/municipal authorities.

Period of SPIC validity

- Payback period of the investment project plus 5 years but not longer than 10 years.

*Incentives are provided in case of compliance with conditions stipulated by legislation - the preliminary analysis is required (amendments to the tax legislation specifying the conditions and procedure for obtaining tax incentives are under consideration).
