

KPMG Advisory

Cutting through complexity

KPMG Advisory professionals leverage the knowledge and skills across our global network of firms to develop practical recommendations designed to help our clients work smarter, grow faster and compete stronger. We are trusted advisors to the world's organizations because we have the people, expertise and deep industry insights to get the job done.

Deal Advisory

Deals don't just happen. At KPMG in Singapore, we think like an investor, looking at how opportunities to buy, sell, partner, fund or fix a company can add and preserve value.

Our **Deal Advisory** team combines a global mindset and local experience with deep sector knowledge and superior analytic tools to help clients navigate an otherwise complex and fragmented process.

From helping to plan and implement strategic change to measurably increasing portfolio value, we focus on delivering tangible results that lets our

clients see clearly what they stand to gain from the deal at hand, and what they want to bring to the next deal down the road.

We advise on all stages of a transaction: review of strategy; planning; preparation; pricing; deal structuring, due diligence; negotiations and completion; integration and separation and value creation.

Our integrated specialists deliver real results. Are you ready to make a difference with KPMG?

Consulting

Transformation is the key word for the Consulting team at KPMG in Singapore. We help our clients navigate the complexity of business enterprise by

providing business insights with an unrelenting focus on sustainable performance. Is this the challenge you've been looking for?

Financial Advisory

Our **Financial Services Advisory** team leverages our Banking, Insurance and Asset Management sector expertise, we work with clients to ideate and provide human centered design solutions combining our capabilities in Consulting, Regulatory matters, Financial Risk Management and Actuarial Services.

Our consultants address critical issues facing clients including digital disruption and sector convergence in projects that involve Regulatory Technology Driven Transformation, Digital Banking, Blockchain/Robotic Process Automation, Enterprise Technology and Data Analytics and Transformation.

Governance & Risk, Forensic, Digital Trust and Cyber

Our **Governance and Risk** team works with clients to manage and enhance their Governance, Risk and Compliance (GRC) transformational activities. We provide comprehensive advisory solutions in Corporate Governance, Enterprise Risk Management, Governance Risk and Assurance, Finance & Accounting, and Sustainability to support our public and private sector clients to successfully achieve their goals.

KPMG in Singapore's **Forensics** team provides advisory services in areas such as fraud investigation, anti-bribery and corruption, anti-money laundering, financial crime compliance, computer forensics, and forensic data analytics. We leverage advanced technologies, such as AI and machine learning, and sophisticated forensic tools so that the best evidence can be obtained for clients and courts.

Our **Digital Trust** team assists clients to gain confidence and trust that their IT

systems are operating effectively. We do this by identifying potential IT risks and assesses the governance and controls to manage these risks. Our consultants work either independently or along side our clients' management to perform: IT risk assessments (including on emerging technologies such as AI, blockchain, cloud); IT audits and reviews; system implementation reviews and assessments; and IT Control assessments.

Our **Cyber** practice helps clients effectively manage and control their important information assets across a broad spectrum of evolving threats and risks. Security is not a one-time project, but instead a strategy that must be adaptive to changing threats. We work at the interface of business and IT, focusing on strategic issues relevant to better governance, risk and compliance practices so that our clients can keep up with evolving cyber risks.

Digital Transformation, Digital Village and Data & Analytics

Our **Digital Transformation** team delivers on our client's digital transformation agenda, with strategy, customer experience and engagement, HR transformation and CIO Advisory as our key focus areas. We provide clients with a customer-centric, enterprise-wide approach to digital transformation with functional SAAS solutions. Our consultants work with clients in aligning front, middle and back office functions to create an agile and competitive edge.

KPMG in Singapore's **Digital Village** team supports clients to transform to be future ready and relevant. We bring speed and agility to the corporate digital innovation journey. Our human-centered design approach enables us to co-design

solutions that are truly unique and let our clients outpace their competition. We focus on real time and measurable outcomes, enabled by our active ecosystem of partners. Technology agnostic, we provide corporates with a ready platform to co-innovate with solution providers and government bodies and turn innovative ideas into robust, practical solutions.

The **Data and Analytics** team transform businesses through integrated, data-driven technologies and capabilities in the scope of Data & Governance, Advanced Analytics and AI. We help business leaders gain new insights through visualization, utilizing AI to augment and automate decision making.
