KPMG Powered Enterprise is the outcome-driven transformation solution that prepares your business for the future.

This is where deep industry and process knowledge, global delivery capability, cloud technology and robotic process automation combine to drive sustainable change, rising performance and lasting value. KPMG’s continuing investment in cloud applications, target operating models, processes and tools can give you instant access to leading practices and predictable outcomes.

At a time when disruption is changing everything, many businesses are struggling to transform. KPMG’s solution can help make it happen.

All power to the enterprise

This is not just about migrating finance or the supply chain into the cloud. From evidence-based HR to customer-centric business models, Powered Enterprise can unleash new levels of agility, insight, efficiency and performance. The value is multiplied when you join the dots across the business.

Driving transformation

Successful, sustainable transformation requires an understanding of how business change plays through every level and layer of the company. KPMG Powered Enterprise aligns the power of new and emerging technologies with the real-world challenges of organizational change.

This is the legacy you don’t discard in five years’ time: what you build today creates the context for what you need tomorrow. What’s more, KPMG teams understand the human factors involved in business transformation, so we can help inspire and empower your people to embrace a new reality.

What’s in the box?
Powered Enterprise provides a formidable combination of leading practices and processes, proven technology solutions and a next-generation delivery framework. This is a truly integrated solution: every component has a role to play in extracting the maximum value from technology and helping to achieve the outcomes you need.

When all this comes together, backed by the business knowledge and experience of KPMG teams, the results are impressive.

- The **Powered operating model** shapes how transformation plays through every layer of your organization;
- the **Powered execution suite** is an integrated platform of next generation tools to help deliver that transformation;
- and **Powered managed services** ensures it is not just a one-off event.

Powered Enterprise is about the future agility of your business. Now you can embrace transformation as a positive state rather than a disruptive event and you can be ready for whatever is coming next. And the KPMG team will be on your side, all the way.

It’s not what you put into the cloud that matters, but what you get out of it.

- A jump start to your digital transformation
- Immediate access to leading practices and processes
- Validated solutions with proven real-world usability
- High-touch change management and employee experience
- Reduced implementation risks and enhanced ROI
- A solid platform for continuing evolution and progress

And that’s not all…

Powered Enterprise is the culmination of sustained investment and decades of experience in the solving of real-world business challenges. The investment and the learning continue. Ongoing collaboration with our clients and key industry players helps to align advances in technology with the evolving needs of the modern business. It’s not just about access to technical upgrades or value-adding services, but shaping your own future.

Powered Enterprise is about business transformation and real, long-lasting change. Technology is simply the enabler. Working with you, we can help you navigate confidently into the digital future - creating a roadmap to top-decile performance and embedding the agility to continually evolve your business.

What comes next is powered by KPMG.
